

How is light used a symbol?

Our value: respect

SCIENCE

We will be investigating changing state of solids, liquids and gases and reversible and irreversible changes.

CELEBRATION

Creating Christingles

SYNOPSIS

This term, through our life learning, we will explore and celebrate our differences. We will consider own individual responsibilities in showing respect to others and what to do if others are not respectful of our differences. In anti-bullying week we will explore this year's theme: United Against Bullying. We will consider how we can have a positive impact on others, through our words and actions.

YEAR 5 T2 Learning map

Key question 1

How do we recognise and celebrate difference?

Through Jigsaw, we will explore our individual cultures and those of our class.

We will learn about the importance of accepting difference and explore a range of strategies for including others when working and playing.

We learn about different types of bullying and how to help if someone is being bullied.

Key question 2

How is light used as a symbol in Christianity?

Why do we have Christmas lights?

Through RE, we will consider why we have Christmas lights and the symbolism for Christians around the world. We will also explore other symbols of Christmas.

We will make Christingles to help us understand the symbols and share these to celebrate our learning.

Key question 3

How is light used as a symbol in Islam?

How does Islam use light to understand their God?

During our RE topic we will be exploring Islam and how they use lights to understand God as they do not make reference to Him in the physical world but instead make reference to light as he guides whoever He will to his Light.

AUDIENCE:

Whole school

MATHS

- Multiplication and division
- Area and perimeter

KEY TEXTS IN ENGLISH

Tempest/Twelfth Night
The Highwayman by Alfred Noyes
