

## Curriculum Intent: Music

At BHJS the aims for music are to provide every child with high quality musical experiences which engage and inspire them. We provide opportunities for all children to create, play, perform and enjoy music and to appreciate a variety of music styles. We aim for every child to leave BHJS with a range of musical skills, knowledge and an understanding and love of music which they can carry with them for the rest of their lives.

## Local and Global relevance

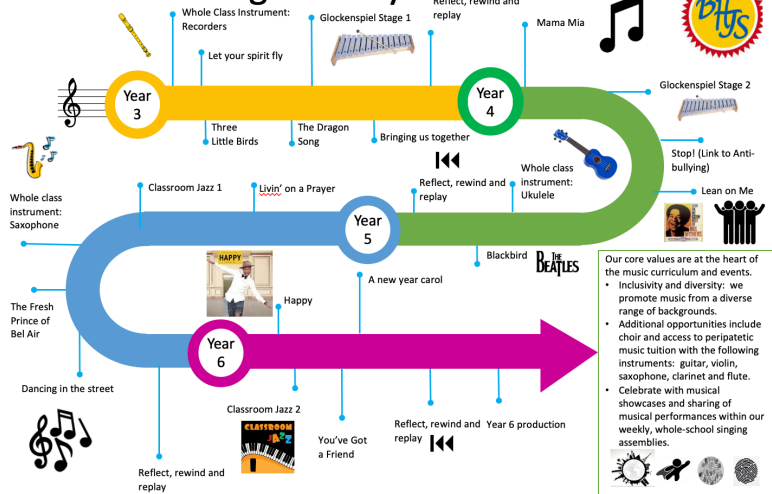

By studying a range of local, national and international musical styles, pupils can make links to a wide range of cultures across the world and how these are represented through music. Pupils will participate in local and regional events as members of the community through concerts, performances and festivals.

## Confidence and resilience

We aim to give pupils a wide range of experiences to develop confident individuals that have a growth mindset about music. This will be shown in confidence to explore, listen to and make music in different styles; confidence in singing; by sharing their own preferences and appreciation for different styles of music.

## Music: Learning Journey

## Inclusivity and Diversity

We aim to explore and widen children's understanding of the diverse nature of music, including music from other cultures and communities. We promote that music is for all pupils to experience and enjoy.

## Identity and values

By exploring a rich range of music making and a wide range of creative projects we seek to develop cultural capital and awareness of different styles of music. Through joint exploration and discussion, pupils develop the ability to express personal likes and dislikes of music artists and/or composers, in order to respond critically.
